

3T Medical announces the initiation of distribution rights for Innovative Sterilization Technologies based in Dayton, Ohio.

June 1st, 2018, Canton, MI, USA

Innovative Sterilization Technologies manufactures the ONE TRAY Sealed Sterilization Container System and 3T Medical will have distribution rights for this unique technology in the following areas: Pennsylvania, New Jersey, Delaware, New York City, Long Island and parts of Florida. This technology provides hospitals and ambulatory surgical centers with a unique methodology to increase sterile processing efficiency and improve the overall quality of patient care in their facilities. There are also advantages in helping control capital investments in surgical equipment, improving the efficiency in surgical case scheduling and improving staffing efficiency.

We are excited about the increased revenues this technology can provide for the company and the sales synergies that can be achieved. This technology allows our sales team to interact with health care staff in the operating room, central sterile processing, and infection prevention and can create expanded customer engagement opportunities for our expanding product portfolio!
